## **Queen of the South**

## **The Divine Comedy**

Please don't look at me that way You'll only make me want to say Something I will regret You are April you are May What a stupid thing to say Just forgive me and forget That I ever opened my mouth And let it all come out Let it all flood out

I am worried for your health Put something warm around yourself Don't let your feet get wet I'm in love and I'm in pain If I say something stupid again Oh just forgive me and forget That I ever opened my mouth And let it all come out Let it all flood out Queen of the South She has opened my mouth And let it all come out Let it all flood out

Something is getting in the way What it is I cannot say I wish we had never met
