

Confidence

The Dodos

soul you had to find your way
gone you had to fly away
I have your will, the task is waiting
I have your will, the task is waiting

confidence, confidence
confidence, confidence

sun the gentle wind behave?
son you had to come and take
a friend away, my mind is empty
my body still, my mind is empty

confidence, confidence
confidence, confidence

dont slow down
dont slow down

who has it all, has nothing here
who has it all, has nothing here
