

...And Julie No More

The Dogma

A shining star is fading away
My ray of light will disappear
The When I'm here I scream an cry
My heart is gone with you...

Rain is falling on my face and
Water join my tears
And As I hear the crime of bell
I bid my last farewell

They all say I'll forget you
I'll fade you from my mind
No They don't understand
I'm lost without your smile

July please... come to me!
Reborn from your grave!
Or my soul will wither like
A rose in autumn's days

...please ...show my the way I have to walk to reach...
...you, please...

Come to me unchain my soul
Take my hand my only love
Break the spell don't be afraid

Cold wind's blowing in the sky
And the sunlight blinds my eyes
My wings are too weak to fly... with you...
