

In the Name of Rock

The Dogma

Since I was born I took the blame
I'm the cause of my parent's pain
The black sheep of the family

When they insisted that I go to school
My old teacher tried to impose her rules
And she always said

"You're just wasting your time
When do you think you'll grow up
Leave all your foolish games
What you're waiting for? "

In the name of rock! We'll break your walls!
We sold our soul! For the rock and roll!
In the name of rock! We'll break your walls!
We sold our souls! For the rock and roll!
In the name of rock! Won't you please fuck off?

The world is running by my side
But I don't give a damn about their lies
Sorry guys... That's my style

Look all the people smile in front of you
They are living inside their plastic truth
And that's pure crap

Live wild on the edge of your life
Don't care, exceed the line
They've drawn in your mind
What you're waiting for?

In the name of rock! We'll break your walls!
We sold our soul! For the rock and roll!
In the name of rock! We'll break your walls!
We sold our souls! For the rock and roll!
In the name of rock! Won't you please fuck off?
