

Mindfreak

The Dogma

Talking, talking, you don't seem to understand
It's not me, in my mind there's someone else
They control all of my thoughts and all my deeds
They can turn into reality my fears

You won't help me
It's not your aim
Not in this place

Can't you see how they're getting strong
You don't believe, schizophrenic freak
Guinea pig with a human mind, that's why I'm here
Let the show begin!

Voices won't help me
It's not your aim
Not in this place

Can't you see how they're getting strong
You don't believe, schizophrenic freak
Guinea pig with a human mind, that's why I'm here
Paranoid!

Game, playing with a melted brain
Fame how many screams for you knowledge
Gain, sanity is your domain
Pray you'll never be found on the other side
