

# Hysteria

The Dollyrots

You think it's funny  
to keep me waiting  
Well I'm not laughing.  
It's so wrong, so wrong  
It's got me feeling  
under the weather  
But you can cure me  
It won't take too long, too long.

I need some of your time.  
Need some of the only thing that makes me cum...

I like it when you touch me, touch me.  
You keep me waiting so long, so long.  
I like it when you touch me, touch me  
Your kiss, your kiss, is curing my hysteria.

And you're my favorite  
But I can't take it.  
So come on over and hold on, hold on.  
and now you're draggin' me along, along.
