

# Get You Alone

The Donnas

Rock you in my car  
Feel the fire superstar  
Turn up the bass and adjust the seat  
I'm on you like a shark on meat

Push the button on the stereo  
Then baby, we can go go go  
I got new speakers that go really loud  
I can't wait to get away from the crowd

C'mon, c'mon, I wanna get you alone  
I wanna have you all to my own  
C'mon I gotta get you alone  
And lure you into the danger zone

I wanna take you down  
But everyone's around  
Let's make them all go away  
Tonight I gotta make my play

Push the button on the stereo  
Then baby, we can go go go  
I got new speakers that go really loud  
I can't wait to get away from the crowd

C'mon, c'mon, I wanna get you alone  
I wanna have you all to my own  
C'mon I gotta get you alone  
And lure you into the danger zone

C'mon baby get in  
Let's turn up the sin  
Now it's dark and there's no one around  
Baby you make my heart pound

Push the button on the stereo  
Then baby, we can go go go  
I got new speakers that go really loud  
I can't wait to get away from the crowd

C'mon, c'mon, I wanna get you alone  
I wanna have you all to my own  
C'mon I gotta get you alone  
And lure you into the danger zone

C'mon, c'mon, I wanna get you alone  
I wanna have you all to my own  
C'mon I gotta get you alone  
And lure you into the danger zone
