

## Revolver

The Donnas

Half cocked and fully loaded  
Not even trying to sugar coat it  
You're aimed to me  
but you're shootin' blanks  
And it doesn't hurt thanks but no thanks

But it's a matter of time  
Till you get yours, and I get mine  
It might not be me  
But you're gonna answer to  
somebody - Revolver

You've got one foot in your mouth,  
and one foot in the grave  
You were diggin' a hole,  
and now you're diggin' a cave

But it's not gonna be so funny anymore  
By the time you wake up  
sobered up and sore

But it's a matter of time  
Till you get yours, and I get mine  
It might not be me  
But you're gonna answer to  
somebody - Revolver

I left my comebacks at the door  
I didn't know what I was in for  
You're deeper than you've  
ever been before  
You're deeper than you've  
ever been before

You've got one foot in your mouth,  
and one foot in the grave  
You were diggin' a hole,  
and now you're diggin' a cave

But it's a matter of time  
Till you get yours, and I get mine  
It might not be me  
But you're gonna answer to  
somebody - Revolver
