

Break On Through (to The Other Side)

The Doors

You know the day destroy the night
Night divides the day
Tried to run, try to hide
Break on through to the other side (3x)

We chased our pleasures here
Dig our treasures there
Can you still recall the time we cried
Break on through to the other side (3x)

Everybody love my babe
Everybody love my babe

She get
She get
She get
She get

I found an island in your arms
A country in your eyes
Arms that chain, eyes that lie
Break on through to the other side (3x)
