Verdilac

The Doors

I'm gonna hang on your neck just like a verdilac Take you for a ride in my cadillac Well I tried, I tried but I can't make you understand Baby can't you see I'm more than just a man

If you don't bring me coffee in my favourite cup You're make it necessary for me to conjure up Spirits Spirits

I'm gonna hang on your neck just like good luck Take you for a ride in my cadillac Well I tried, I tried but I can't make you understand

If you don't bring me coffee in my favourite cup You're make it necessary for me to conjure up Spirits Spirits Spirits Spirits
