The-Dream

I wanna rock your body, your body, your body, your (baby)  
Your body, your body, your body (baby)

Girl I can't lie, I can't deny  
Girl I can't wan' get me some  
Please don't lie, don't be shy  
Let me taste your love in my tongue  
Put your lips on my lips  
When I dip, you dip, we dip  
Take off on my rocket ship  
I know you know what it is

Mmm hmm, good lovin'  
That grindin', that bumpin'  
That aww yeah, that bed shake  
That next day, body ache  
So shawty get up on it  
I'mma make that body go from left to the right  
From side to side  
Now I'm gon' get behind it  
And I'mma make that thing ride, ride  
Roc, roc, roc, roc  
Roc, roc, roc

I wanna rock your body, your body, your body, your (baby)  
Your body, your body, your body (baby)

When I'm making love to you girl  
Feel like I'm on top of the world  
Your body, your body, your body (baby)

There's so much I wanna say  
Tryna keep my composure babe  
While you're holding me  
I hope you'll always be my lady  
I must admit what you're doing got me going insane  
Poppin' it, droppin' it, oh yeah babe

That grindin', that bumpin'  
That aww yeah, that bed shake  
That next day, body ache  
So shawty get up on it  
I'mma make that body go from left to the right  
From side to side  
Now I'm gon' get behind it  
And I'mma make that thing ride, ride  
Roc, roc, roc, roc
