

# Wish You Were Mine

The-Dream

I just wanna roll with you  
There's nothin' else that I'd rather do  
I'm shootin' for the stars, maybe we can land on the moon  
Baby I'd be your fool, you're so dope and cool  
But you're with this other guy, maybe some other time  
But damn, I wish you were mine  
I wish you were mine  
I wish you were mine

I just wanna lay with you - can I spend all day with you?  
Usually I'm not that guy, but there's something 'bout you I like  
I wanna be the one, when it's all said and done  
But I may never get the chance cause you got a man  
But damn, I wish you were mine  
I wish you were mine  
I wish you were mine

I love your girl shit  
And really I'm sorry, but not really sorry at all  
And I don't wanna start shit, but I know that I'm starting shit  
Get rid of that starter kit and come on

Girl I wish you were mine  
Girl I wish you were mine  
I wish you were mine

Why we always on something that somebody else tries?  
But this ain't like none of them times, I really adore you a lot  
Trying to make you my girl even though you got a man  
This ain't no one night stand, shit  
Stalking you like a fan, shit  
I'm just playing, shit you know your body's the bomb  
So you'll do whatever you want, you got me in my falsetto  
Singing all this sweet shit all up in your flower bone  
I'm ready to make every time feel like your first time  
I know he's waiting at home  
But thinking 'bout it ain't a crime,  
I wish you were mine  
I wish you were mine  
I wish you were mine  
I wish you were mine  
I wish you were mine
