

Another Lonely Weekend

The Drifters

It's only 48 hours in my life
But it seems to last forever
Doesn't matter if the weather's rainy or fine

And all I have to look forward to
When my work is through
Is another lonely weekend
Babe, if only you were here with me
Then it wouldn't be
Just another lonely weekend

I know from Monday on, I'll be okay
You'll be working there beside me
But when it comes to Friday
You go your own way

And all I have to look forward to
When my work is through
Is another lonely weekend
Babe, if only you were here with me
Then it wouldn't be
Just another lonely weekend

I get so tired of playin' Cards alone
I can't lose and I can't win
I only wish the lonely hours away
'Til Monday comes around again

I must be crazy not letting you know
You may feel the same about me
Today, a week without me
Is two days too long

If all I have to look forward to
When my work is through
Is another lonely weekend
Say you're gonna spend them all with me
Then there'll never be
Another lonely weekend

Say you're gonna spend them all with me
Then there'll never be
Another lonely weekend

Say you're gonna spend them all with me
Then there'll never be
Another lonely weekend
