

## Spanish Lace

The Drifters

She was standing there  
So beyond compare in Spanish lace  
(Spanish lace)

My heart touched the sky  
Captivated by her angel face  
(Angel face)

Dancing 'neath the moon  
I soon discovered the new world  
That lovers always find

When I found her there  
So beyond compare in Spanish lace  
(Spanish lace)

We danced away the night  
Until the morning light said time to go  
(Time to go)

I knew we'd have to part  
Such sadness filled my heart, I loved her so  
(Love her so)

And now that love has flown  
Alone, I think of the heartache  
That I will have to face

Dreaming of that night  
The stars that shone so bright and Spanish lace  
(Spanish lace)

And now that love has flown alone  
I think of the heartache  
That I will have to face

Dreaming of that night  
The stars that shone so bright and Spanish lace  
(Spanish lace)

Dreaming of that night  
The stars that shone so bright and Spanish lace  
(Spanish lace)

Dreaming of that night
