

# Baby, That's Not The Point

The Drums

I shouldn't share and I'm trying to be keen  
And I'll travel the world to the American pier

But baby, that's not the point  
Baby, that's not the point  
But baby, that's not the point  
Baby, that's not the point

You take my hand, tell me to forget my fears  
You tell me every day girl to be a man

But baby, that's not the point  
Baby, that's not the point  
But baby, that's not the point  
Baby, that's not the point

I can't forget my fears  
I can't forget my fears  
I can't forget my fears  
I can't forget my fears
