Days

The Drums

And now days go by and I never needed you
And now days go by and I never needed you
And I worked so hard and I killed myself
And you broke my bones and I soothed my soul

But now days go by
and I never needed you
But now days go by
and I never needed you

And I could have been your mother
and I could have been your sister
Be your twin brother
I just wanted to be, I just wanted to be

And now days go by
and I never needed you
but now days go by
and I never needed you

We were just wasting time
And now days go by
and I never needed you
but now days go by
and I never needed you

but now days go by
and I never needed you
but now days go by
and I never needed you
