

# I Don't Know How to Love

The Drums

When you're alone  
And I'm alone  
I could touch your hair three months ago  
But now it makes you so upset

But you say I don't know how to love  
I simply don't understand my life

You can say you don't know  
But I remember football in the snow  
Everybody's gone home  
Why don't you love me anymore

But you say I don't know how to love  
I simply don't understand my life

But you say I don't know how to love  
I simply don't understand my life

But you say I don't know how to love  
I simply don't understand my life
