

If He Likes It Let Him Do It

The Drums

If he forgets you
He forgets you for good
If you wanna feel
You better start searching some more
Because it was a happy time
Now it's winter time
And you're cold

If he likes it let him do it
If he likes it let him do it

I could never be a soldier
So I won't make you stand so tall
And tonight's the night
When there's light in your eyes
And you say goodbye
Or I die

If he likes it let him do it
If he likes it let him do it

If he likes it let him do it
If he likes it let him do it
If he likes it let him do it
If he likes it let him do it
