```
If he forgets you
He forgets you for good
If you wanna feel
You better start searching some more
Because it was a happy time
Now it's winter time
And you're cold
If he likes it let him do it
If he likes it let him do it
I could never be a soldier
So I won't make you stand so tall
And tonight's the night
When there's light in your eyes
And you say goodbye
Or I die
If he likes it let him do it
```
