

Alone Tonight

The Ducky Boys

And when I call your name you wont be there
And when I wake in pain you wont be there
Out on the avenue
I fell in love with you
And all I'm falling into now is a bed of nails
I don't really want to be alone tonight
I want you by my side
But I'll be alone tonight
No matter what I dream it won't keep me san
No matter what I say it wont make you stay
I don't really want to be alone tonight
I want you by my side
But I'll be alone tonight
And i'll recount all my mistakes
And I recount the things I did to turn your heart away
I don't really want to be alone tonight
I want you by my side
But I'll be alone tonight
I don't really want to be alone tonight
Do you really want to be alone tonight?
