

# Always Be There

The Ducky Boys

You've had rough times and I've had some too  
While you've made mistakes,  
I could always learn from you  
You walked a path, I was close behind  
You'd set me right and you'd warn of what you'd find  
I wish these days that I had the past  
When you weren't so down and I could hear you laugh  
Those days are gone we're to face the world  
You're struggling but your cries won't go unheard  
You can count on me when you're feeling down  
You can call on me when there's no one else around  
I'm not so happy with the way things went  
But I won't forget, you'll always be my friend  
I just want you to know that I will always be there for you  
You've taken turns I was scared to make  
Then you looked to me and said it was a mistake  
I let you go wrong while you led me right  
But I let you go, now I never want to fight  
I just want you to know that I will always be there for you
