

Scars

The Ducky Boys

When you're lying in bed at night do you think about a normal life?

Do you think about a normal life like me?

Take a look at my scars tonight

They remind me of them awful times

They remind me of the awful times we've seen

We ran a long way from home

I see it Plain and Clear

There Aint Nobody Real

Looks like I'm On My Own again

When you're lying in bed at night do you think about a better life?

Do you think about a better life like me?

We ran a long way from home

I see it Plain and Clear

There Aint Nobody Real

Looks like I'm On My Own Again
