

Untitled

The Ducky Boys

If i did it all over again
Would you, would you find a way
If you did it all over again
Would you, would you end up dead

Finding all the things your after
Took it's toll my friend
Search for all the things your after
If it kills the pain
Your all alone when you come down
Your all alone when you come down

Too young to burn out like you did
But you pick the life you lived
Too young to burn out like you did

Finding all the things your after
Took it's tool my friend
Search for all the things your after
If it kills the pain
Your all alone when you come down
Your all alone when you come down

Yeah it's russian roulette with a loaded gun
You reach for one more round your done
Your all alone when you come down
Your all alone when you come down
