

Villain

The Duke Spirit

Each round is a new start
So don't miss my favorite part
The thrill of you bursts like rain
And now we must part, try to explain

Sweep aside all the fake
Obstacles that made you wait
Oh, here's a way you can't get lost
Don't forget to turn next time you cross

I'm a villain in love, you're a villain alone (x4)

You look to her
with all the devotion of a sweet stray dog
all gone
Don't you stare, you know it's rude
But don't be afraid to lose
I watch the view from where I sit
Try yourself, it won't hurt a bit

I'm a villain in love, you're a villain alone (x4)

And I want to follow you into your sleep
Yeah I want to give it a try
Well I want to follow you into your dreams
Yeah I want to give it a try

I'm a villain in love, you're a villain alone (x4)

And I want to give it a try
Well I want to give it a try
Yeah I want to give it a try
Well I want to give it a try
