

Sympathy Has Decreased

The Duskfall

Down in the pit for ages now
Can't get up nor further down.
Blamed for all and everything
I'm blamed for all your goddamn sins

What has really improved
We will crash with higher speed.
Sympathy has decreased
I can't believe we're of the same breed.

Down, they break and tear you down
Can't get up nor further down
What has really improved
We will crash with higher speed.
Sympathy has decreased
I can't believe we're of the same breed.

That white your wear can't hide your perversion
The sins you bear is a part of your behaviour
That white your wear can't hide your deception
The sins you bear is a part of your invention

Down in the pit for ages now
Can't understand
Blamed for all and everything
I'm blamed for all your goddamn sins

That white your wear can't hide your perversion
The sins you bear is a part of your behaviour
That white your wear can't hide your deception
The sins you bear is a part of your invention

Tell me what is the rush boy?
Hurry up so you won't miss your place in the grave
Won't learn our lesson
Not now or next season.
