

Ashala Rock

The Early November

As we crawl up the stairs
Grabbing everything falling down
We rip the shades to see the light
Finding hope in broken life

Just as we see some sky
I turn my head and then I close my eyes
I know that this won't end
It's just finding out the right way to begin

We're finding hope in life
You're my dream tonight
With you I'm falling in love
For the very first time

Crawling up these stairs
Grabbing everything that's falling down
We rip the shades down
To see the sky and all its light

We're finding hope in life
You're my dreams tonight
With you I'm falling in love
For the very first time

(Find my way back, find my way back)
Open up my arms
When you fall in, we're looking up at stars
We're singing a song
We're talking and we're singing our way home
