

## Ever So Sweet

The Early November

I just found a friend  
in one of your lies  
to treat me so nice  
I can't believe my bones  
when they say so many things  
they tell me I am fine  
believe me I, I try

Oooh oooh oooh...

Ever so sweet...  
you make this seem  
the way things go  
its not my fault  
and I'll miss  
I'll miss you so good  
through all of those nights  
we lost our way back home

Ever so sweet  
you baked it in cakes for me.  
What you left behind,  
it hurts my teeth.  
Bring in the past  
with the postcards you sent for me.  
Every line,  
it brings me right back down.

Can't you see the wall you built for me  
can't you see the wall you built for me  
can't you see the wall you built for me

Cause we're not special  
we're not special  
we're not special

Well I'm not special  
I'm not special

Ever so sweet  
you baked it in cakes for me.  
What you left behind,  
it hurts my teeth.  
Bring in the past  
with the postcards you sent for me.  
Every line,  
it brings me right back down.
