

Every Night's Another Story

The Early November

Make your way down the face
Of everything we know
And go so far see other places
And other people I won't know about

Breathe in deep, let it out slow
Did you hear it's all my fault again
I know why no one else knows
why I am all alone again

Make it sound so good that I won't be right
And I walk alone tonight
Outside my house and outside my mind
No matter what I say, I'm never right

Breathe in deep, let it out slow
Did you hear it's all my fault again
I know why no one else knows
Why I am all alone again

Breathe in deep, let it out slow
Did you hear... GO GO GO!
(2x)

Breathe in deep, let it out slow
Did you hear me just GO GO GO!

(Breathe in deep, let it out slow
Did you hear... GO GO GO!)

Well I will wait for you for days
Well I will wait for you for days
Well I will wait for you forever
(2x)
