Everything's Too Cold...But You're so Hot

The Early November

Your smile is like the sun to me So bright it's weakening But so sweet But of all that you would like from me A smile and be okay Sorry, it's taken me everyday To accept that I have to say Say no

I'll be right here Say something's wrong To just find fault She complains the room's too cold But when I learn to make heat, It's just to disappoint Oh you know I'll forget, so quick

Time, it makes it fine That's how we make this life Makes it fine It's makes it right

Your eyes, they can't see What it takes from me Or how it hurts Or how it holds our hands

I'll be right here Say something's wrong To just find fault She complains the room's too cold But when I learn to make heat, It's just to disappoint Oh you know I'll forget...

So quick

You know I always forget You know I always forget You know I always forget
