

Fluxy

The Early November

It's not fair
To find you there
Waiting on
I don't care
I care
Way too much

Wait and see
Well, that you are inside of
The places that you knew you loved
The only time you'll ever trust
You are done
It's all been done

It's not fair
to find you there
waiting for me
I don't care
'Cause I care way too much

Wait and see
Well, that you are inside of
The places that you knew you loved
The only time you'll ever trust
You are done
It's all been done

Wait and see
Well, that you are inside of
The places that you knew you loved
The only time you'll ever trust
You are done
It's all been done (6x)
