

I Want to Hear You Sad

The Early November

These eyes they're strongly covered in disguise
they're waiting on the real time again
you'll see that no one knows for sure

For all of this
I'm better off without you
do you regret all
your loneliness

This ride is drifting slowly to the side
we're swerving off the road
going past the cones that warned us from the start

For all of this
I'm better off without you
do you regret all
your loneliness

For all of this
I'm better off without you
do you regret all
your loneliness

(Every day goes, every night goes)
on and on we sing this song
the entire day that's oh so long
every night we sing this song for you

For all of this
I'm better off without you
do you regret all
your loneliness

For all of this
I'm better off without you
do you regret all
your loneliness
