

## Sesame, Smeshame

The Early November

We find our, our way through this  
Knowing  
the actors who play our friends  
They always win

So come in, we're all inside of nothing  
The place where we live our lives  
And take all you want  
Because we ain't got nothing to lose, we're always looking up

The hardest to pretend is that we never quit  
So the actors, who play ourselves  
Say they never cared

So come in, we're all inside of nothing  
The place where we live our lives  
And take all you want  
Because we ain't got nothing to lose, we're always looking up
