## We Write the Wrong

## **The Early November**

I tried but why can't I You can't see what I see From you it's you

In all my life You find the wrong But I write it off 'Cause you write the wrong

Wait and see it all waiting

You can't see, You're never gonna see When you're not listening To your own voice

In all my life You find the wrong But I write it off 'Cause you write the wrong

We're turning down

In all my life You find the wrong But I write it off 'Cause you write the wrong

You write the wrong
