

Did Me Good

The Elected

These places, they don't make me happy
And this food, no, it don't make me full
And the moon makes me sad for the love that we had
It was you, oh, you, who did me good

And these shows that I watch in the daytime
And these pages that I read in the night
And these girls that I see, well, they just remind me
It was you, oh, you, who did me good

You did me good
You did me good
You did me good
You did me good
Yeah, you did me good
Oh, did me good
You did me good
You did me good
When we stayed up til we saw the sun
Yeah, you did me good

Well, baby I've been thinking all about you
And I've been visiting with you each night in my dreams
And I know that you'll come back
Cause I have seen that other man
And baby, he ain't doing you no good
So come back
Oh, and do me good
Do me good
Do me good

Do me some good
Do me good
Do me good
And we'll stay up til we see the sun
And do us some good

She's a good one when she's cleaning out her room
She won't like you, no, she loves me
I've seen trouble come my way
I've seen many a dark day
But I've seen the sun coming up in your face

And I know that you'll come back
Cause I've seen that other man
And baby, baby, baby
He ain't doing you no good
So come back
And do me good
Do me good
Do me good
Do me good
Yeah, do me some good
Do me good
Do me good
Oh, do me good
Cause you did me good

You did me good
You did me good
Yeah, you did me good
You did me good
You did me good
We can stay up til we see the sun
Yeah, we'll stay up til we see the sun
Like we stayed up til we saw the sun
When you did me good
