

Jailbird

The Elected

My girl jailbird, let you be home
Jailbird, jailbird, in a box alone
See through walls and no foot steps to feel you all
My girl jailbird, thinking I'll be
Jailbird, jailbird get under the
She eats nothing left to kill those birds
Jailbird, jailbird it ain't all black and white
Innocent as the day we met I'll testify
Broke your body and broke your head, took your best shoes

My girl's a jailbird, never thought I'd say the word
Jailbird, jailbird it ain't all black and white
She's innocent as the day we met I'll testify
They took her and she's not the same
They took my place her
And I wouldn't laugh if I can't my whereabouts
Oh jailbird, I was a jailbird, never black and white
I'm innocent at least I'll testify.
