Sun Sun Sun

The Elected

Sun, sun, sun, stay with me
Don't go behind the clouds
I know that you'll go down
But while it's day, let your light hit me
Cause if I lose you now
I fear I could bow out
And I don't know where I'm going to
When I get there, I'll send for you
And I'll know when I see it, but
Be patient, I swear I'll come through

So ride, ride, ride, ride your pony
But please don't ride him far
No, stay within the yard
It played out just like you told me
I'd scratch your pretty eyes
I'll put out those little lights
But your heart, I didn't break it, no
It was taken from you years ago
And the hole those older men pulled it through
It's still aching
Let's be patient, you'll pull through
Pull through
Pull through
Pull through
Won't you ?

And I've made
I've made up for my mistakes
Cause of the pain of what I'd caused
Won't be shit next to what I've lost
And I hated being fucking patient
So you waited
You waited
You waited
But I never ever came to

So sun, sun, sun
What are you doing ?
You went behind the clouds
But all the rain came down
My old house is in ruins
If you would come out again
And dry up all the rain
Then I'd climb right up again
Like that spider in that nursery rhyme
And these tales, well they're not meant to
But it's time that we make them
Come true
Come true
Come true
For me and you
