

## Left Hand

## The Envy

Emotion and forced to erase  
and I put it on a line  
A head to solve the deprived cipher  
and an earless cell are both torn off  
An intangible red arrow  
penetrates the body

The refusal they make up disregard  
the minority opinion  
Responsibilities go up in the air  
Resistance collapse easily  
Then discrimination appears an  
ungraspable light penetrates my eye

A decomposed thumb in my cursed  
left hand runs away quickly

Glare back the glaring eyes  
Armed with jarring noise  
Nothing happens,  
just a slight transition is on the way  
Only changes,  
only deserts  
Common knowledge simply go paralyzed.  
Let loose the spellbinding
