

Trouble In River City

The Ergs!

I guess you didn't notice but I get this all the time
I know what you're doing here
You've come here fighting loneliness
And you wish you were mine
Well save your Harvey Danger references, I'm spoken for
I don't mean to bring you down
But there'll be trouble in River City if you're around
You need to make a getaway
And I'm parked right outside
I need you to get out of here
You look less than sober but I'm ok to drive
I need to get you out of here
