

# Walking Through Walls

The Escape Club

Some things will never change  
Some things we'll never know  
Walking down the rocky road  
Down and out  
With so far to go  
Without you on my mind  
I'd never make it  
Without the stars in the sky  
Well love is love  
And one is one  
So I turn around  
To head for the sun  
And now I'm on my way

Without any hope  
Without you on my mind  
Without any dreams  
Without the stars in the sky  
Without any love

There's nothing at all  
So I'm on my way home  
And I'm walking  
Walking through walls  
Some days just never end  
Some days go to slow  
Walking down the rocky road  
Down and out  
With so far to go  
Without you on my mind  
I'd never make it  
Without the stars in the sky  
Well love is love  
And I lost the fight  
So I turn around  
And head for the light  
And now I'm on my way

Without any hope  
Without you on my mind  
Without any dreams  
Without the stars in the sky  
Without any love
