

Out of Grace

The Essence

The way I saw you dancing
In the rain
The way I held your hand
And left in pain
The way you said you
Always remember the same
Don't let it end
Oh please explain
All what you said tonight
You always change the words for now
And again
There's nothing left to say
If only I knew what I must say
Now the night's away
The way I saw you dancing
In the rain
The way I saw you cross your legs
And screamed
The way the wetness
Dripped out of my face
It leaves me
Oh so sensual
It's out of grace
And all I ever want
To use you up
And break your heart again
And all I ever said
Just hold me now
And feel the same again
But I'll just drop you dead
Again
And again... and again...
