

## All I Ask Of Life

The Everly Brothers

I know I'd never care  
If life should leave me blind  
As long as I could I see  
The love-light in your eyes  
I'd want for nothing else  
If you were only mine  
For all I ask of life is love from you  
I'd never once regret  
My life if were deaf  
As long as I could hear  
You speak to say you care  
The world could disappear  
As long as you were here  
For all I ask of life is love from you
