

Her Love Was Meant for Me

The Everly Brothers

Somewhere close or maybe far away
Stands a girl I will meet someday
And in her eyes I will see
Her love was meant for me
Won't have to say, anything
Just on her hand, place a ring
Her answer then will simply be
Her love was meant for me
She may be just around the corner
Or somewhere far across the sea
All I know is I'll find her
For it was meant to be
She will cry, just one time
When I say her heart is mine
And in her tears I will see
Her love was meant for me
Her love was meant for me
