## **Only Me**

## **The Everly Brothers**

Where is that part of me That keeps me from the precious things I feel Where is the heart of me Who am I Where are those special wings Oh that fly me to the world that's in your eyes I see it waiting there Where am I Where are those open doors That let me in and never lose the key Oh that's where I should be Next to you Where is that dream of me That used to seem so wonderful oh and real Oh that's what I should be Only me
