

## That Uncertain Feeling

The Everly Brothers

That uncertain feeling  
That's with me today  
Walked into my life and tempted me away.  
You know I'm not free now  
And I'm ashamed to say  
That uncertain feeling is a game we have to play.  
That uncertain feeling  
Is still on my mind

We're worlds apart now you say we're two of a kind,  
Both searching for paradise,  
That we lost along the way  
That uncertain feeling only two can play,  
That uncertain feeling, gotta drive it away

Who knows where the road will lead us,  
And when tomorrow comes

All that matters is you believe in what you're doing, not what  
you've done.  
And I know that I'll be hurting someone while we're having fun.  
So if you don't mind I'll be leaving soon:  
Got a lot to catch up, got a lot to do with...  
That uncertain feeling  
Won't leave me alone

We're out having good times when I'm needed back at home.  
You know that I want you  
But I'm ashamed to say  
That uncertain feeling only two can play,  
That uncertain feeling, gotta drive it away,  
That uncertain feeling only two can play
