Who's to Be the One

The Everly Brothers

Who's to be here by my side When I'm all alone Who's to be here to sympathise Who's to be the one Who's to make my dreams come true When my sleep is done Who's to keep me from being blue Who's to be the one Who's to share my heartaches Who's to calm my fears When the world has hurt me Who will share my tears Who's to take me by the hand And say their love I've won Who's to be here to understand Who's to be the one Who's to be the one
