

# Outta My Mind

## The Evidence

I know I'm outta my mind  
I've lost my mind  
Or just ahead of my time  
"My brain is insane"  
I know I'm outta my mind  
"I might lose control"  
Or just ahead of my time  
"The mind tricks the body, body thinks the mind is crazy"

Rockin' at first was hell without Rakka  
I pop up in spots they scream "Do Clockwork! "  
I'm Dilated the fuck off, I ain't doing it  
Before Weatherman dropped they thought I might have ruined it  
Elusive I just denied rumors  
Smile and give punchlines with dry humor  
See what the future brings  
In '03 I got on MTV  
Time is love  
That's the message I'm sending them  
Sign with Slug and survive beef with Eminem  
I mentioned different events in my sentences  
It's dangerous to reminisce so remember it  
Still it's Evidence, check one two, one two  
Less punches and spit what I've been through  
I stayed here, got booed but kept rappin'  
The same year got sued by Kurt Macman (fuckin' asshole)

I know I'm outta my mind  
I've lost my mind  
Or just ahead of my time  
"My brain is insane"  
I know I'm outta my mind  
"I might lose control"  
Or just ahead of my time  
"The mind tricks the body, body thinks the mind is crazy"

Look I know where I come from and know who I started with  
But trying to split a check eight ways that's the hardest shit  
And I ain't starvin' shit  
I had to get my own  
So I ain't tryin' to hear that bullshit you on  
Like you love my brother's my crew more than I do  
Anytime I make a change I gotta run it by you  
I wish I would give a fuck  
I was broke in the hood in the porch in some Chucks  
The first one sayin' Mid City on these records  
And made the world respect it  
Clover Dale, 13 hundred block movin'  
Sunshine, bomb bitches, that's how we do it  
And what you doin man? You shovelin' snow?  
Throwin coke up your nose, you win love with the blow?  
Oops  
Think I'm dissin' my own crew  
But I love the Living Legends I was talkin' 'bout you

I know I'm outta my mind  
I've lost my mind

Or just ahead of my time  
"My brain is insane"  
I know I'm outta my mind  
"I might lose control"  
Or just ahead of my time  
"Mind tricks the body, body thinks the mind is crazy"
