

# Calm & Collapsed

## The Exies

I don't feel anything  
Isn't that amazing  
I don't want everything  
Just a little bit of nothing

'Cause even if it feels strange  
And stands apart from nature  
Even if we don't know  
We're the circuit breaker

We're calm and collapsed  
We're calm and collapsed  
We're calm and collapsed  
Now we're calm and collapsed  
(Collapsed collapsed collapsed collapsed)

Is it just me lying here  
Or is somebody breathing  
Why do I live in fear  
When I'm not sure you're here

'Cause even if it feels strange  
And stands apart from nature  
Even if we don't know  
We're the circuit breaker

We're calm and collapsed  
We're calm and collapsed  
We're calm and collapsed  
Now I'm calm and collapsed

So break me down  
I'm hungry for pain  
So break me down  
And crucify me again

Oh, 'cause even if it feels strange  
And stands apart from nature  
Even if we don't know  
We're the circuit breaker

It's me they're not forgiving  
I'm feeling no resistance

We're calm and collapsed (4x)  
Now I'm calm and collapsed  
I'm calm and collapsed
