

Head In My Hands

The Expendables

We all have our problems
We all make the same mistakes as you
We all get our hands full
Nothing we can blame or tie things to
Maybe if i close my eyes
I can keep a picture in my mind
To save me from the daily stress
For my mind to take a rest
I am holding my head in my hands
I don't care if you don't under stand
I'm stepping out of my self for now
I finally found a moment
Nothing in this world can bring me down
I'll take it and I'll hold it
Cuz in my head I don't
Even hear a sound
If only for a second in time
We can just forget these hectic binds
To life to love to time to wealth
We just a need some time to our selves
I am holding my head in my hands
I don't care if you don't under stand
I'm stepping out of my self for now
Ooooooh I'm gonna loose it
I think I 'm gonna fold
I need to stay in control
Ooooooh is my fuse lit
I think I'm gonna blow
I need to stay in control
Ooooooh I'm gona loose it
I think I 'm gonna fold
I need to stay in control
I am holding my head in my hands
I don't think you can under stand
