

## Set Me Off

## The Expendables

Set me off on the first melody  
Give me that breath which I can breathe  
If there is nothing left in this life to satisfy  
Give me all that I need  
If only I could find  
A symbol or a sign  
To let me know everything's ok  
I guess I finally found  
A piece of solid ground  
So let me know before you put me down  
The life load the work load  
What do you have to show  
For this life for this life  
What gets you going what  
Keeps your blood flowing  
All I need is one song  
To keep me moving on  
Keep me moving on  
Keep me moving on  
What do we have, what do we have What do we have  
I said we got each other
