

We Don't Have To Worry Anymore

The Exploding Hearts

You don't have to be lonely to know it.
And you still haven't been to your friend's.
I remember girl, (?)
If you find a new lover on the fourth of July,
Forget about me in the summer,
In the summer.

In my head a lost of that you loved and needed,
With tears so blue and crystal pleated, oh yeah.
But remember girl, have a good time.
When I give back the stone, when I get back in mind.

Forget about me in the summer.
Forget about me in the summer.
Forget about me in the summer.

Things that get me stoned,
I wish that you could keep,
Standing empty bottles,
Remember all the laughs,
Remember all the laughs.
Remember all the laughs.

Forget about me in the summer (4x)

Forget about me in the summer,
You know that it's already over.
Forget about me in the summer now.
It's our summer time,
We're going to be wasted.
It's our summer time,
We're getting stoned.
We don't have to worry about teachers,
We don't have to worry anymore.
We don't have to worry anymore.
We don't have to worry anymore.
